

What We Do

We advance the interest of all woodland owners in the practices of

- ⇒ Sustainable Forestry
- ⇒ Wildlife Habitat
- ⇒ Timber Production
- ⇒ Recreation Management

We assist in developing a public appreciation for the value of Wisconsin's woodlands and their importance to the economy and overall welfare of the state

The mission of the Wisconsin Woodland Owners Association is to conserve and enhance the private woodlands of the state through the following actions:

- ⇒ Sustainably manage our woodlands with informed management plans that utilize best silviculture* practices;
- ⇒ Assist private landowners in achieving their management goals by connecting them with natural resource professionals and fellow woodland owners;
- ⇒ Educate the public on the value of woodlands for economic, environmental, recreational, and wildlife habitat purposes.

These actions will ensure future generations can enjoy the natural beauty and benefits of our woodlands. Our vision is to be the "go-to" organization to assist woodland owners in achieving their sustainable forestry goals.

Benefits of a Phoenix-Falls Chapter WWOA Membership

- ⇒ We meet with fellow landowners and share our experiences about managing woodlands.
- ⇒ We send periodic newsletters announcing up-coming Chapter events and other woodland management activities.
- ⇒ State DNR personnel participate in our chapter events.
