

Wolf River Chapter Wisconsin Woodland Owners Association (WRC-WWOA)

Supporting Woodland owners in Outagamie, Shawano, and Waupaca counties

Purpose of the Wolf River Chapter of WWOA

- Bring together tri-county woodland owners to hear, share, and learn about activities to improve forest properties
- Promote enjoyment and appreciation of the land, water, and forest through educational activities
- Discuss use of property equipment, and the techniques/expertise used to achieve sustainable forestry
- Share ideas to promote succession planning and how to build a legacy of woodlands for future generations
- Build camaraderie among a community of local woodland owners

As one of 13 local Chapters, WRC-WWOA supports the statewide organization, Wisconsin Woodland Owners Association (WWOA) from the ground-up. **Note: When joining the WRC-WWOA, participants must also become members of the state WWOA.** Voting & nonvoting memberships in the statewide WWOA are outlined on the organization's website: www.wisconsinwoodlands.org. The cost of a WRC-WWOA membership is just \$10/year. This is a nominal cost in addition to the state membership. It covers refreshments at Field Days, mailing costs, printing, and other miscellaneous operating expenses. WRC-WWOA member enrollment is at the end of this flyer.

Purpose of the State Wisconsin Woodland Owners Association (WWOA)

—Encourage sustainable forestry and all related resources in Wisconsin

--Serve the interests of woodland owners

-- Develop public appreciation for the value of Wisconsin woodlands and the importance of woodlands in the economy and overall welfare of Wisconsin

--Educate woodland owners to instill a strong commitment to sustainable forest management

The WWOA website states the benefits of membership @ www.wisconsinwoodlands.org

How Will Joining The Wolf River Chapter of WWOA Benefit YOU?

Through the WRC-WWOA, you will network with other woodland owners and build friendships at WRC field days. You can learn proven management practices from veteran forest owners—learning from “mistakes and successes”. You’ll view, first-hand, woodland management practices in a three-county area. Finally, you will broaden your understanding of the ecosystem through periodic visits to area wildlife educational facilities at field days. So, won't you join the WRC?

Personal Contact Information

The WWOA website has a list of Chapters and their chairs with contact information. For your convenience, here are the three Wolf River officers you might wish to contact:

Anthony Rynish, Chair
rynishforestry@gmail.com
